Boulder City Hospital Community Health Needs Assessment 2015

- Purpose of the community health needs assessment
- Results of the community health needs survey
- Prioritizing community health needs and services to meet those needs
- Next step: Implementation strategies and final report

Prioritizing Community Health Needs and Services in Boulder City

Purpose of the Assessment

What are We Doing?

- Obtain input from the community on local health and health care service needs
- Combine with the most current information on local health and health care from state and national data sources
- Assist the community, hospital board, and Boulder City Hospital with immediate community benefit reporting requirements and long-term strategic planning and development

Purpose of the Assessment

Why are We Doing This?

Patient Protection and Affordable Care Act (ACA) requires not-for-profit hospitals to provide a community health needs assessment:

- Every three years
- Input from the community
- Assessment findings and recommendations must be made widely available to the public

Community Health Needs Survey

- Survey conducted from September 21, 2015 to November 16, 2015
- 143 responses in total
 - 66 paper surveys
 - 77 online surveys
- 99% of respondents reside in Boulder City
