GREETINGS & HAPPY NEW YEAR FROM YOUR BCH AUXILIARY

The BC Hospital Administration and the Auxiliary Board thank you for your continuing support and Auxiliary membership. Through your continuing membership and funds from Goldie's Gift Shoppe, staff requests for medical equipment have been met. This past year your dollars have helped purchase a bladder scanner, printers, a blood pressure monitor and a temporal thermometer. In addition to the equipment, your Auxiliary provides five \$1,000 scholarships to high school seniors and staff who plan on furthering their education in a medical field. Also, an important annual beneficiary is Long Term Care, helping Salome where she feels the funds are most needed.

Auxiliary membership is very important to the hospital. For this reason, the Auxiliary Board will be advertising more and, something new, has divided our membership into two classifications, Active and Supporting. Active members who help in the gift shop, Long Term Care or any capacity where staff and/or patients are involved must meet several detailed steps required by the Hospital Administration. Supporting members are those persons who prefer helping financially only. Either classification is only a \$10.00 annual donation. Members will receive a membership card and are invited to the installation dinner in December. In an effort to communicate, the Auxiliary Board will send very short periodic news happenings through your e-mail and every three or four months a more formal newsletter will be sent via the US Post Office. You are all 'Friends of the Hospital' and for this are greatly appreciated. Thank you.

A Note from the President

On October 15, 2016, at a dinner hosted by the BC Chamber of Commerce, our Boulder City Hospital Auxiliary was presented with an award recognizing outstanding community service and for being non-profit of the 2015-2016 year. The picture shows our Vice President, Chuck Haraway, accepting a beautiful plaque which is now hanging just outside the Goldie Begley Gift Shoppe at the Hospital.

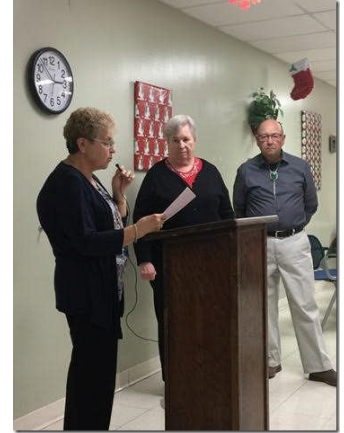

You earned this. We all earned this. The volunteers of the Auxiliary are truly the most generous people I have ever had the privilege of knowing, and this award speaks to how appreciative the community is that we are here. Thank You for all you do.

Annual Meeting and Holiday Luncheon

The Annual Meeting and Holiday Luncheon on the 14th of December was very enjoyable. 2017 Officers Cathy Westrich and Chuck Haraway were installed as President and Vice President, respectively, and the delicious menu of Chicken Cordon Bleu, salad and dessert was prepared and served by Ann King and her staff. Our guests were Tom Maher, BCH CEO and Guest Speaker BC Fire Chief Kevin Nicholson. There was a drawing for two gift certificates and a basket of goodies. Our new

President made introductory remarks listing items the Auxiliary purchased, along with the other 2016 activities and achievements.

Your Auxiliary is a very active entity with the Hospital, providing financial and material assistance whenever asked to do so. To carry on as a useful, giving partner to the Hospital, the BCH Auxiliary needs your participation as an active or supporting member. So, if you have not done so, and to continue as a valuable member in 2017, stop by or mail your \$10.00 donation to Boulder City Hospital, Attn: Auxiliary Membership, 901 Adams Boulevard, Boulder City, NV 89005. To be successful we need you and many new members. You will be surprised and happy at what your \$10.00 can do.

Annual Report by President Cathy Westrich

We had another interesting year in the Auxiliary. At the beginning of 2016, we had a full slate of officers. Then suddenly, in March, again we had no President. The Vice President (me) became President and the Gift Shop Treasurer (Chuck Haraway) became Vice President. History repeats itself and we moved forward.

Some of our accomplishments include:

- We were named the Boulder City Chamber of Commerce Non-Profit of the 2015-2016 year for outstanding community service.
- Goldie's Gift Shoppe continues to be a great place for gift shopping, especially for holiday and other special occasions.
- We awarded five scholarships, and donated funds toward a bladder scanner, temporal thermometer and GI printer for the Hospital. Our total donations came to \$14,789.10.
- We have a total membership of 83. We gained 12 new members.
- We continue to recruit members and strive to keep Goldie's Gift Shoppe open at all scheduled times.

We are looking forward to an even better 2017!
